Dear Speaker Pelosi and Leader McCarthy,

On behalf of the associations listed below, representing college leaders, educators and professionals, we write offering our strong support for the H.R. 2740, a minibuss bill providing FY2020 appropriations for Labor, Health and Human Services and Education, Defense, Energy and Water, and State and Foreign Operations.

The funding allocated in these combined bills would provide needed investments in student financial aid, scientific research, institutional support and workforce training. Many of the programs covered in this bill have been cut or funded at levels below inflation over the last decade.

Increased funding in these areas will promote a number of positive outcomes. Support for federal financial aid will make postsecondary education more accessible and affordable to students and families. Enhanced scientific research funding, particularly at the National Institutes of Health, will improve the quality of life for all Americans. Strengthening student and institutional support programs will help more students succeed in college, particularly among underrepresented groups. Finally, enhancing workforce skills training will enable students to pursue multiple pathways to a career while simultaneously expanding our economy.

For these reasons, we encourage your members to vote in support when the final bill comes to the floor for passage.

Sincerely,

Ted Mitchell
President
